Designer Name VIENNA CHEW
Designation DESIGN DIRECTOR
Project Name SENTRAL SUITES
Project Type COMMON AREAS & FACILITIES
Project Location KUALA LUMPUR
Site Area (Sq Ft) 26,767 SQ FT
Completion Date 2023

As the world evolves, Sentral Suites stands as a poignant reminder that we should never lose sight of our origins. Through innovative designs that harmoniously blend tradition and modernity, the development transcends mere nostalgia; it fosters a profound dialogue between generations, nurtures mutual understanding, and paves the path toward a more unified future. Nestled in Kuala Lumpur, this masterpiece serves as an invitation to join in the preservation of our vibrant cultural heritage. The themed rooms and lobbies within Sentral Suites pay homage to the diverse traditional Malaysian games and its culture.

Sentral Suites boasts three distinct lobbies. The "Congkak Lobby" features Calacatta Marble reception and circular seating reminiscent of the congkak board curves. The "Spinning Top Lobby" incorporates circular designs throughout the space, and the "Takraw Lobby" pays tribute to the traditional football game using Travertine Grey Marble flooring, Purestone Beige & Grigio porcelain wall tiles and rattan pendant lights.

Vibrant and whimsical, the "Bottle Caps Game Room" is where the essence of table tennis comes alive in a bright fusion of yellow and white hues. Here, the walls are adorned with irregular zigzag lines depicting the movement of the bottle cap game, cleverly accentuated by concealed lighting, and expansive glass windows unveil picturesque scenic views. As you step into the heart of the "Guli Game Room," the captivating world of billiards and traditional game of flicking marbles intertwine. The enchanting ambiance merges with dark-toned balls bathed in the spotlight's glow, setting the perfect mood for an intense gaming session. And for those observing the matches, wooden stations offer a cozy spot to rest and keep score.

In the enthralling world of the “Capteh” dance studio, the beam lighting creates an atmosphere reminiscent of playing with the feathered shuttlecock. The ceiling, adorned with vertical black stripes, seems to mimic the graceful movements of dancers, while the studio’s windows offer serene views of lush greenery, providing a delightful environment for dancing enthusiasts. For fitness aficionados seeking motivation, the “Conquer” gym awaits with the inspiring slogan “Just Do It for Success.” The gym’s design features a tiled brick wall, cement-inspired flooring, and touches of white tape and wooden elements, fostering an atmosphere that encourages pushing boundaries and achieving greatness.

Next up is the “Eagle Catch Chicks” BBQ Area, a shaded oasis with an Octagon table and wingback chairs that cleverly symbolize a cosy nest. Look down, and you’ll notice the porcelain tiles adorned with diagonal patterns, reminiscent of the running patterns required to triumph in the thrilling game it commemorates. The “Galah Panjang” multipurpose hall on the other hand stands as a tribute to a traditional game, with its design boasting vertical lines and square motifs that harken back to the game’s roots. The space is versatile, catering to various activities and gatherings.

At the “Eraser Battle” seating area, you’ll find three-coloured tiles that playfully represent the different sides an eraser can fall on during the game. The ceiling, adorned with jagged lines, mirrors the energetic movements required to engage in the amusing eraser battle. Nestled next to each other, the “Five Stones” reading lounge is where the five stone pouches inspire the design of the space using a variety of colourful and textured fabric, while the charming “Breakfast Nook” is the perfect spot to enjoy a relaxing breakfast and rekindle memories of these childhood games.

For the little ones, the “Masak-masak Kids Centre” awaits, a delightful play-eatery designed to spark their imaginations. Complete with booth seating, an Ikea play set and an array of toy foods, this space is every child’s dream come true. In the “Paper Plane Seating Area,” the artistic interplay of triangular-shaped lighting, fabric seats, wooden chairs and textured flooring creates a cozy and inviting space. It’s the perfect nook to unwind and engage in conversations.

Finally, the “Tippy Tap Seating Area” offers a place for meaningful discussions, with its innovative triangular shapes and custom-made seats. Parents can also relax and keep an eye on their little ones playing in the nearby pool.

The integration of elements from traditional games into the very fabric of the building’s design serves as a testament to their unwavering commitment to bridging the gap between generations. ■
